## DIY Craft: Paper-Plate Crown!

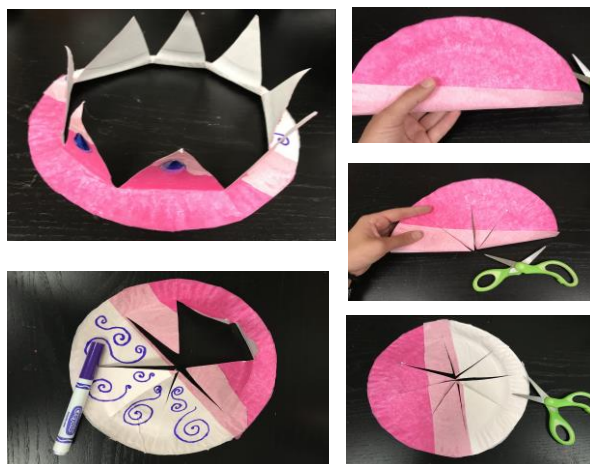

Tap into your inner king or queen with this fun craft!

Project inspired by: [Glitter on a Dime](#)

### Materials Needed:

- paper plate
- tissue paper
- scissors
- glue
- markers & decorative items

### Instructions:

1. With the plate upside-down, use a glue stick to glue tissue paper onto the plate.
2. Cut the extraneous paper off the edges.
3. Fold the plate in half like a taco.
4. Make 3 incisions in the plate from the fold. *Don't cut all the way— leave 1.5 inches from the edge uncut.*
5. Open the plate and cut along the folded lines, *again leaving 1.5 inches uncut.*
6. Use markers, tissue paper, glue-sticks and “jewels” to decorate the crown.
7. Fold the triangles upwards to give your crown its shape!
