

## DIY Craft: Worm Bin Pop-up Card!

Make an imaginary worm bin with this pop-up card craft!

### Materials Needed:

- 1 card (or folded cardstock)
- 1 piece of brown paper
- Drawing utensils
- Scissors
- Glue (or tape)
- Decorative items like pipe cleaners, stickers, and additional paper

### Instructions:

1. Open up your card and trace it onto your brown paper.
2. Fold the brown paper in half so it can fit into the card. This will be your pop-up insert!
3. Remove the insert from the card.
4. Starting at the fold of the insert, cut lines halfway into the paper in sets of 2s. (We cut 6 lines total)
5. Push the paper between the cuts against the fold to create a “pop-up” effect.
6. Glue the insert onto the inside of the card. Remember: keep your “pop-out” pieces free of glue!
7. Create things that will go into your worm bin by drawing, coloring, and cutting out shapes or using decorative items! Be creative! These can be your worms, pieces of newspaper, and things worms want to eat like coffee grounds, apple cores, banana and avocado peels! Don't forget to add worm eggs (which look like tiny lemons)!
