

DIY Craft: Decorative Banner!

Spend some time sprucing up any indoor space with craft materials you have at home by making a simple and colorful banner! It can say anything you want like, "Happy Mother's Day", "Happy birthday", or even a "Thank You" to all of the essential workers on the frontlines!

Materials Needed:

- Paper
- Drawing Utensils
- Scissors
- Glue (or tape)
- Ribbon or String

Instructions:

1. If you have 8' 11" paper, fold in 4ths, and cut along the axes.
2. Holding the rectangle vertically, fold the bottom upwards about 1.5-2 inches.
3. Turn the rectangle over so the fold is now at the top and back of your paper. (This fold is how each banner piece will hang on the string, so it's important it's at the top!)
4. Write out 1 bubble letter per-rectangle, leaving folded portion un-marked.
5. Cut out each letter, making sure to leave the folded-over portion intact.
6. Cut out your string or ribbon. Run through the folded portion of the letters.
7. Glue the folded portions of the letters down, and fold in place.
8. Once the glue has dried, hang up your banner and enjoy!
9. Tag us and share your artwork on social media!
